Sale of Day Property

The holdings of the Day Lumber & Coal Company in Clay City will be sold at public auction in front of the company store today beginning at 12 o'clock. There are a number of casual prospective bidders for the different pieces of property locally, but our guess is, that unless some outside concern comes in and bids up freely, the property will be sold well worth the money.

Narrow Road Causes Ditching

The splendid new road to the Clark county line which is in many places too narrow to admit safe passing of automobiles, was the cause of Jim Willie Potts ditching his machine last Sunday when he met another machine coming this way. The machine ran over an embankment about four feet high. This and all other embankments more than three feet should be railed for safety.

Progressive Judge

Judge H. T. Derickson has purchased a lime pulverizer to be driven by the pulverized tractor he purchased in the spring. The Judge has an abundance of lime rock on his place, which he hopes to turn into fertility of the soil by spreading the pulverized article on his land and growing clover.

Boy Has Leg Broken

Burnett Hurt fell Tuesday from the railroad overpass and sustained a broken leg and was otherwise injured. The lad is about 10 years old and is suffering much. His father, D. B. Hurt, who is in charge of some government duties at Bloomfield, Ky., was summoned home and is at the bedside of his little son.

Auto Paint Shop Open

The Clay City Garage has opened its paint shop with Oscar Staples, the expert painter, in charge. There are now six cars ready for the skill of Mr. Staples who will soon have them on their wheels again with the glisten and all the lustre of brand new machines. He knows how.

Moving to Lexington

W. R. Eubank has moved this week to Lexington to look after the interests of the Jefferson Standard Life Insurance Company. We regret to lose Mr. Eubank and family from our midst.

Mad Dog Rage Continues

Several mad dogs have been killed in Powell county the past week. So far, however, no one has been affected. Several have taken treatment for exposures and have thereby escaped.

John W. Burton Ill

John W. Burton was taken very ill quite suddenly Sunday while at the dinner table, and, for a time, was in a very critical condition. He is now much better.

Dick Smothers (Col.) Set Free

Dick Smothers, colored, a life term from Clark county for the murder of A. T. Pettit, Chief Police at Clay City, in February, 1913, has been paroled from the penitentiary and is now free. The murder of Pettit was one of the worst crimes ever committed in this county and it is a shock and surprise to the people of this county that one of the murderers should be freed. No notice of application for parole has ever been brought to the attention of the people of this county, where the murder was committed, or protests would have been filed. The whole thing was evidently silently rushed by the persons interested. "And for why?"

Making Temporary Move

Mrs. T. G. White is moving partly to Lexington this week. Mr. White will remain with Brodhead-Garrett Co., and return to Lexington to spend the week-ends. The move is temporary, to accommodate their boys, Gilbert and Bev, in the splendid schools of Lexington.

Camp Meeting

The annual camp meeting will be held near Campton from Aug. 12th to Aug. 27th. Evangelist F. B. McClintock, of Richmond, will lead in the preaching. Daily excursions over the Mountain Central railroad will be run during this meeting to accommodate those who wish to attend.

Town Property for Sale

On Saturday, July 12th, Mr. J. B. Lucas will sell his Main street property at Public Auction, Saturday, August 12th on the premises. This is a desirable location and means that some one will get a bargain in this property.

Operated on For Appendicitis

N. V. Rose was operated on Monday morning at Clark County Hospital for appendicitis. He underwent the operation well and yesterday morning was getting along nicely which will be welcome news to his many friends in Powell county.

Moves to Winchester

George W. Lyle moved last week to Winchester where he recently purchased some desirable property.

Meeting at Rosslyn

Rev. J. R. Nelson closed a very successful meeting at Rosslyn Sunday night. He was assisted by Rev. E. K. Kidwell. A number of additions.

They are Mild But Effective

Biliousness, headaches, blurred vision, bad breath and coated tongue are almost certain to be present with a mass of heat-producing undigested food in the stomach. Foley Cathartic Tablets keep the digestive organs active and the system fit and fine, purged of poisons. Not habit forming. Sold everywhere.

Off for Camp Knox

Gilbert White, Gilbert Bashaw, Everett Hurt, Hoke Smith, John Powell, and Dorse Hardy left here Monday morning for Camp Henry Knox where they will be students in the Citizens' Military Training Camp of the U. S. Army. The course will last for the month of August only. We wish them all luck and know the Powell county boys can deliver the goods just as well as anybody there.

Fiscal Court Meeting

The Powell Fiscal Court will meet at Stanton today to pass on certain road matters. The people of this county can depend upon our Fiscal Court to do all it can to speed up the road work. If those fellows at Frankfort can only speed matters up a little we may yet get some more road in the old county.

Work Speeding

The Mountz steel garage is fast being keyed together under the direction of Ashury Patton. Mr. Mountz will find it possible to save considerable money in the erection of this building by employing home talent instead of city tradesmen, who usually are required to do this class of work.

Pie Supper

There will be a pie supper at the Little creek school on Hardwick's creek, Saturday night, August 5th, for the benefit of the school. Everybody invited to come.

County Court Day Monday

County court day at Stanton Monday promises to be a day of interest. Two Commissioner's Sales will take place as well as the regular court proceedings.

The Best Tire for the Money

The experience of The Times man is that the best automobile tire for the money is the Oldfield. We have watched their wearing qualities, and while the 30x3 1/2 sells for only \$8.99, we have seen no other fabric tire outlast or outwear them, or even equal them. While in the garage business here we sold a number of them and not one single complaint from customers. With this experience it is quite a pleasure for us to commend these tires to the public, and more especially so since this company carries a nice advertisement with us quite occasionally.

The recent reduction of crude oil has been reflected in the price of gasoline which is now down one cent.

Bad Murder Case

The foul murder of Leon Renaker at Winchester has aroused unusual interest in all parts of the State, and excitement is running high. A reward of \$4,000 is offered for the apprehension of the murderer. It is safe to say from present developments an arrest will soon be made.

Mr. and Mrs. Lisle Fox and son, Marcus Lisle, and Mr. Allen Sams, all of Winchester, visited relatives in Clay City Saturday and Sunday.

Road Work

Judge H. T. Derickson came in person last week and supervised the repair and grade work on the Powell's Valley road. He will be present this week and help grade the road from Clay City to the Estill county line. Work in other parts of the county is also going on to the satisfaction of the taxpayers. Three cheers for the Judge and his good roads efforts.

The Hookworm Again

The State Board of Health is to revive the hookworm lookout this fall. The Board claims that the disease in the first county surveyed—Laurel—there shows a reduction of 60 per cent. in the disease, thus taking credit, casually, for this reduction to the Board. May we expect them in Powell? All counties showing a high percentage of the disease will be looked after this fall.

Board of Supervisors in Session

The unfair mandate of the State Tax Commission has put the County Board of Supervisors to action this late in the game. The fiscal year has closed and any act of the Board is really illegal. But they need the money at Frankfort and so they have gotten busy to get it some unfair and unusual way. There is no recourse it seems to escape an unjust ruling.

Growing Crops

The good rains that have prevailed in Powell county the whole season continues, and prospects for better crops were never seen. Grass was never better in August, and thus live stock is in fine condition.

We often hear it said that prohibition has not helped the whiskey question. This is a mistake and should never be said, and every person should post themselves on this all-important question. Every honest person will say conditions are better and will still be made better. Suppose we had to contend with saloons while this strike is on? Would there be blood shed? Some say, well, "they sell it and that is against the law." Yes and it is against the law to kill, steal, and many other things, and there is no thought of it ever being anything else only against the law, and there is nothing said of repealing these restrictions, and there is no need of the whiskey people trying to fool the public into thinking the 18th amendment can or ever will be repealed. It is going to be strengthened.

How The Master Driver Became Master Tire Builder

IN 1903, driving the "999" racing car, Barney Oldfield started his career of victories that later earned him the title of "Master Driver of The World." To overcome the tire weaknesses that made racing difficult and dangerous, he studied tires—specified materials—supervised construction.

Today, Barney Oldfield is known as the "Master Tire Builder." Starting with the crude tires which carried the "999" one mile in sixty seconds, Oldfield gradually developed his famous Cords—a set of which covered 500 miles at eighty-eight miles an hour without a change.

In three years Oldfield tires have won every important race on American speedways. They are the only

American tires that have ever taken first place in the French Grand Prix. They have won for three consecutive years in the 500-mile Indianapolis Sweepstakes. So far in 1922, Oldfields have lowered four World's Records and seven track records.

The Wichita Test Run gave evidence of Oldfield superiority in touring—when a set of four Cords covered 34,525 miles over rutted, frozen, winter roads—a performance attested by the Mayor of Wichita.

See your dealer and get a set of these rugged tires that Barney Oldfield has developed and perfected through a lifetime of practical tire experience. Their performance will convince you that they are "The Most Trustworthy Tires Built."

Fence Bargain

Through mistake a fence concern has shipped us 320 rods of fence. Rather than return this fence to the factory and pay more freight, we will sell it to farmers at only 45 cents per rod. This fence is 47 inches high; the top and bottom wires are No. 9, and the intermediate and stay wires are No. 12. This makes a good heavy fence, worth much more money than we ask for it.

To kill Stray Dogs

County Judge H. T. Derickson has received the following communication from the State Board of Health which requires officers to destroy all dogs running at large unmuzzled. He asks that the notice be given wide publicity and the instructions complied with:

"Dear Sir:

"Acting upon the authority conferred upon it by law, the State Board of Health calls your attention to a widespread epidemic of rabies in dogs in the State. From counties in almost every section of the State men, women and children have been bitten by mad dogs and large live stock has been similarly infected and destroyed.

"In order to prevent a widespread epidemic of this very dangerous disease, this Board requests you to immediately issue such instructions to your subordinates as will cause them to destroy, as painlessly as possible, all stray dogs found running at large in any part of your jurisdiction. There are now more than sixty individuals taking the treatment for bites from rabid animals at the office of this Board in Louisville, and more than twice as many other persons are being treated by their physicians at home. This is a wholly unnecessary expense and burden to our people and prompt action in ridding every section of the State of stray dogs will immediately reduce the danger.

"All dogs should be considered stray dogs which are at large unmuzzled for the next sixty days after publication of this notice in local papers.

"Given under our hands and the seal of the Board at Louisville this July 14, 1922.

Why Suffer?

Cardui "Did Wonders for Me," Declares This Lady.

"I suffered for a long time with womanly weakness," says Mrs. J. R. Simpson, of 57 Spruce St., Asheville, N. C. "I finally got to the place where it was an effort for me to go. I would have bearing-down pains in my side and back — especially severe across my back, and down in my side there was a great deal of soreness. I was nervous and easily upset.

TAKE

CARDUI

The Woman's Tonic

"I heard of Cardui and decided to use it," continues Mrs. Simpson. "I saw shortly it was benefiting me, so I kept it up and it did wonders for me. And since then I have been glad to praise Cardui. It is the best woman's tonic made." Weak women need a tonic. Thousands and thousands, like Mrs. Simpson, have found Cardui of benefit to them. Try Cardui for your trouble.
